## GLM CUSTOM MARKER

### 2 WAYS TO CREATE YOUR CUSTOM MARKER:

#### 1 - Use the GLM Design Tool

Use the GLM Design Tool by logging in, placing your stamps where desired without changing their size, selecting your preferred colors, adding any text or additional icons, counting your total stamps (letters = 1, small icons = 1, medium icons = 2, large icons = 4), choosing your finish (Torched for a dark look or Plain for a shiny finish), then save your design, add it to cart, and complete your order.

#### 2 - Print the last page of this workbook, follow the instructions and sketch yourself.

## 2 WAYS TO CREATE YOUR CUSTOM MARKER:

Carefully circle your desired stamps from the SMALL, MEDIUM, and LARGE stamps, number them in your preferred order, and then place each one on the marker canvas to show exactly how you want your final custom marker to look, as illustrated in the image below.
